Neural Style Transfer

NeuralArt - Stylize your Image

Avishi, Vaseem Naazleen, Shivangi Tomar

June 2020

Team - 38 NST June 2020 1/9

Overview

Our project aims to stylize image by implenting A Neural Algorithm of Artistic Style paper by Leon A.Gatys, Alexander S.Ecker and Mathias Bethge.

June 2020

What is Neural Style Transfer?

- Neural Style Transfer is a technique used to generate image in the style of another image.
- It takes a content image, a style image, and returns the content image as if it were painted using the artistic style of image.

Key Finding

The representation of content ad style in the Convolutional Neral Network are seperable.

Team - 38 NST June 2020 4,

Modules

- Keras (TensorFlow backend)
- NumPy
- SciPy
- Flutter

Team - 38 NST June 2020 5/9

Status

- Read the research paper.
- Working on the code implementations.

Team - 38 NST June 2020 6/9

Learnings and Difficulties

- Learned to work with github conveniently.
- Learned to make presentation using Beamer.
- Studied about CNN.

Team - 38 NST June 2020 7/9

Difficulties

 The program is taking lot of time to output stylized image. (Working on it)

Team - 38 NST June 2020 8/9

Thank You :)
